

Outer fabrics had mastered how durable it is for keeping stable condition from the stress of rain and water.

However, not only surface of fabric, but temperature in cloth and breathability to be comfortable are extremely important.

Daiwabo's moisture permeable, waterproof, and breathable fabric is an advanced material keeping perfect balance between waterproof and breathability.

This fabric make you comfortable anywhere and any scene you are.

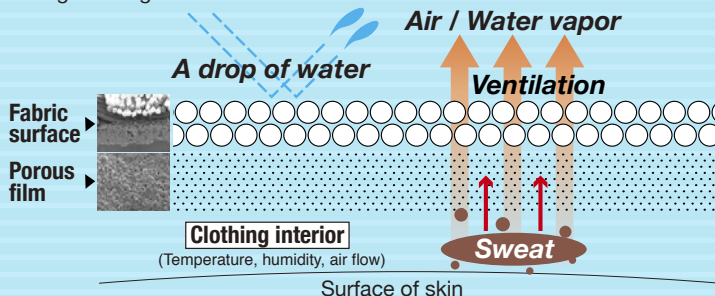

# The Breathing Fabric

## Waterproof and breathability fabric

**Waterproof**

**Breathability**
